Public Records Request made by: Jerry Galland

REQUEST:

A letter to the editor of the Federal Way Mirror authored by Citizen David Myers appeared in the Mirror's online edition dated July 25, 2012. Mr. Myers wrote of his experience training with members of South King Fire & Rescue Engine 62 as a "journey into the specially constructed two-story simulated disaster building".

While this very special treat and accommodation came as somewhat of a surprise considering the email you sent me on August 23, 2011 concerning 'members of the public' not being allowed 'custom tours' of SKF&R facilities (see below), dated Friday July 26, 2012, and pursuant to Chapter 42.56 of the Washington State Revised Code of Washington, I am making a Public Records Act Request for the following public records:

- What date did Mr. David Myers participate with members of SKF&R in his exciting adventure
- What advance training did Mr. David Myers require and receive prior to his involvement in the training exercise and was this prerequisite instruction provide at SKF&R facilities and did it involve staffing of SKF&R
- What measures were taken to address the liability issue should Mr. David Myers have been injured during the exercise and legally pursued damages or liability letter
- A copy of any liability waiver or indemnity signed by Mr. David Myers
- The cost for Mr. David Myers to participate in the training exercise
- How much of that cost was borne by the taxpayers of the district to accommodate Mr. David Myers.
- How much, if any, of the costs were paid to the district by Mr. David Myers, including copies of invoices and cancelled checks.

- A detailed list of what extraordinary circumstances existed that allowed Mr. David Myers the exceptional invitation to partake of his remarkable adventure inside the training facility with several members of SKF&R at great risk to the and in light of your stated policy as noted below.
 - *The District has no records responsive to this request*

Information supplied: 2 pages

Amount Due: \$0

Available on: Thursday, August 23, 2012 after 3:30 pm.
